APC Smart-UPS Just Got Smarter
Introducing Connected Smart-UPS

Proactive Notifications

Connected Smart-UPS™ routinely provides proactive UPS life-cycle recommendations, helping maximize the life span of your UPS, giving you the most for your investment.

Higher Productivity

Through automatic firmware updates, Connected Smart-UPS ensures your UPS is equipped with the latest technologies, saving you time to be further productive.

Mobile Access

The APC™ SmartConnect web portal is accessible from any internet-connected device. You'll be able to check on your IT equipment on site or through mobile devices such as smartphones and tablets.

Secure Infrastructure

Connected Smart-UPS adheres to the latest industry standards in secure data collection, secure data processing and in maintaining security of our infrastructure while utilizing 128 bit AES encryption for in transit data.

Innovative Design

Connected Smart-UPS is the first cloud enabled UPS for distributed IT, delivered by the pioneers and the industry leaders of uninterruptible power: APC by Schneider Electric, bringing you certainty in a connected world.
